

Application and registration to the degree project – student

1. Go to <https://kurser.lth.se/exjobb/>. You can change the language in the top right corner. Start the application by logging in in the top right corner. Use your Lucat/student id to log in.

Form for Degree projects

The system handles applications for degree projects.

As a student, you log in to the system (in the top right corner) and fill in your program and the type of degree project you want to do. The form is then sent to the relevant administrator (program planner or master coordinator) who checks that you fulfill the admission requirements. When you are approved, you will receive an email from the system with a link that you forward to your supervisor or examiner (the person/role you have been in contact with first). When done, you send the link to the other person. When both have approved the form, it is sent automatically to the administrator who puts the degree course in Ladok. Then you will receive an email that the degree project is ready to begin, and that you can register in Ladok.

If you do not meet the admission requirements/prerequisites, you will receive a separate email about it.

- [Information about degree projects](#) (masters students)
- [Information about degree projects](#) (incoming exchange students)

2. Make sure the information is correct.
Master's students should choose a programme name starting with Master's programme in....
Exchange students should choose INRES – Incoming exchange students.
Submit the application by clicking on Create degree project.

Here you request a check that you meet the eligibility requirements to start the degree project

Lucat	First name	Last name	Personal number
<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
Mail	Phone	Ladok	Search Lucat
<input type="text"/>	<input type="text"/>		
Programme	Project type
