

# Master Programme in Industrial Design

Program code: TAIDE

Scope: 120 credits

Cycle: Second

Approved by: Programme Board ID

Validity: 2017/2018

Date of approval: 21 March 2017

In addition to the syllabus, general regulations and information for the Faculty of Engineering apply to this programme.

## 1 Aim and outcomes

### 1.1 Aim

This internationally oriented master's programme aims to develop the knowledge, skills and judgement of students in the field of design, especially industrial design.

The three themes of the programme are intended to provide students with specialised insight, knowledge and skill to reflect on:

- current and future technological developments in industrial design;
- the most recent findings on current and future human needs and life patterns;
- sustainable development and environmental issues.

A further aim of the programme is to reinforce the students' future professional roles as industrial designers.

### 1.2 Outcomes for a Degree of Master of Fine Arts in Design (120 credits)

(Higher Education Ordinance 1993: 100)

#### Knowledge and understanding

For a Degree of Master of Fine Arts (120 credits) the student shall

- demonstrate knowledge and understanding in the main field of study, including both broad knowledge of the field and a considerable degree of specialised knowledge in areas of the field as well as specialised insight into current research and development work, and

- demonstrate familiarity with methods and processes for dealing with complex phenomena, issues and situations in the field.

#### Competence and skills

For a Degree of Master of Fine Arts (120 credits) the student shall

- demonstrate the ability to formulate new issues autonomously and creatively and contribute to the formation of knowledge, solve more advanced problems, develop new forms of personal expression as well as to reflect critically on his or her artistic approach and that of others in the main field of study,
- demonstrate the ability to create and execute his or her own ideas with his or her own personal expression, to identify, formulate and solve artistic and creative problems autonomously and also to plan and undertake advanced artistic tasks using appropriate methods within predetermined time frames,
- demonstrate the ability both nationally and internationally to present and discuss his or her works and artistic issues in speech, writing or in other ways and in dialogue with different audiences, and
- demonstrate the competence and knowledge required to work autonomously in a professional capacity.

#### Judgement and approach

For a Degree of Master of Fine Arts (120 credits) the student shall

- demonstrate the ability to make assessments in the main field of study informed by relevant artistic, social and ethical issues
- demonstrate insight into the role of art in society, and
- demonstrate the ability to identify the need for further knowledge and take responsibility for his or her ongoing learning.

### 1.3 Further studies

On completion of the second-cycle degree, students have basic eligibility for third-cycle studies.

## 2 Programme structure

### 2.1 Courses

The programme is two years and comprises 120 ECTS credits. The curriculum specifies the mandatory courses for the master's degree. Furthermore, it lists the optional courses that can be taken beyond the degree requirements.

### 2.2 Practical External Training

A voluntary summer course of 15 ECTS is open for the student after the 2nd semester.

## 3 Specific admission requirements

### 3.1 Admission requirements

A Bachelor's degree with relevance to the applied education. A portfolio of their own work in the field that clearly proves that the applicant has good potential to benefit from the programme. Students must also have documented proficiency in English corresponding to at least English 6 in Swedish upper secondary school.

## 4 Degree

### 4.1 Degree requirements

For a Degree of Master of Fine Arts (120 credits) in Design students must successfully complete courses comprising 120 credits, including a degree project. 75 credits must be second-cycle credits, including the degree project.

#### 4.1.1 Degree Project

Degree projects included in the programme are listed in the timetable.

### 4.2 Degree and degree certificate

When students have completed all the degree requirements, they are entitled to apply for a degree certificate for a Master of Fine Arts (120 credits) in Design. Main Field of Study: Industrial Design.
