1. The upload/download Paradise.
2. First give then take.
3. Unfriendly deadlines.
4. Reliable Partnerships.

LECTURE 1

Group A. Arts & Culture

Mediterranean identity and heritage

Valencia has a great representation of the art and culture of Mediterranean Europe. The aim of this course is learning about the rich architectural and artistic heritage of Valencia, its millenary history and the footprint of the different cultures that have passed through. You will have the chance to discover the Gothic, Renaissance, Modernist and Contemporary styles.

Group B. Science & Technology

Global industrial and environmental challenges

Students of this course will get into the latest technologies applied to industry as well as sustainable practices in business development. The main focus will be on Agrifood Industry and Processes.

Group C. Health & Nutrition

Spanish food and culture

Students will learn about the unique Mediterranean diet, one of the main fundamentals of our Lifestyle.

Our diverse and balanced cuisine, highlighting the olive oil, is a clear reflection of the variety and quality of the Mediterranean products.

According to our lifestyle, sustainable mobility is one of the strengths of Valencia, recently declared European Green Capital 2024 for its green spaces network and environmental policy.

LECTURE 2

Soft skills for career building

Working on skills such as leadership, strategy, project management or sustainable finance, will set a cross-cutting approach to any career.

SOCIAL PROGRAMME (activities may vary upon staff availability)

Students will be able to practice sports, learn Valencian recipes or develop their photography skills in our afternoon activities : Beach Volley Camp, Culinary Atelier or Photography Workshop.

TRAINING COURSES

(course offer may vary upon staff availability)

Language Training: *Spanish for Beginners*

Spanish for Beginners is a five-hour crash course that enhances the basic communication skills of participants. Sessions involve applied oral and written language training, combining individual and team work tasks.

IT Training: *Applied IT Tools for University Staff*

This intensive five-hour course will focus in two main areas:

1. Awareness of Internet hidden risks , stressing on the user's privacy.
2. Presentation creating skills. Widening the framework beyond the traditional presentations, introducing new tools.
